PayWay Batch capabilities

Batch processing payment solution

PayWay Batch gives you the ability to process your customers' credit card payments all at once by uploading a payment file into the secure PayWay Portal. You can generate the file from your accounting system automatically or create it manually in a spreadsheet. PayWay Batch can be used for both recurring and ad-hoc credit card payments.

Supports a wide range of file formats

PayWay Batch supports a variety of file formats for credit card processing:

- St.George IPG
- Westpac MTS
- Cardlink
- Batch Advantage XLS

Real time authorisation

PayWay Batch will authorise the credit card transactions in real time, providing you with an immediate approve or decline response. You will receive same-day settlement for Visa and MasterCard® transactions completed before 6.00pm AEST to your St.George account.

Easy reconciliation and reporting

PayWay Batch generates a file of payment receipts for you to upload into your accounting system each day. You can also view payments made in the past 220 days online or in a spreadsheet. PayWay Batch also provides trend reporting showing the volume and value of sales over the past two years.

Four easy steps

- 1 Generate your file in one of the supported file formats.
 - 2 Upload your file into the PayWay Portal.
 - 3 Payments are processed and credited to your nominated St.George account.
 - 4 When processing is complete, you can download your daily settlement file which contains the details of transactions that have been approved or declined.
